SECTION C - HEALTH & SAFETY

ARRIVAL AND DEPARTURE

It is the parent's responsibility to sign the children in and out of all programs and camps. Children will not be released to any person other than those who are specified on the child's membership form. If someone not on the list will be picking up your child, you must notify the staff by written or verbal request. Please note, staff will ask for photo ID if they do not recognize the person picking up your child. If there is no photo ID available, or another staff to verify their identity, the child will not be released. If your child is using the After School child care program, and does not show up when scheduled, we will call the parents/guardian to confirm their whereabouts. It is very important to notify us when a child will be absent.

BEHAVIOUR MANAGEMENT

All children are treated in a positive and respectful manner that supports healthy child development and HIGH FIVE's commitment to children policy. Staff will use a variety of behavioural guidance and techniques and focus on positive reinforcement. If a conflict arises between children we will use a child-centred approach to resolve the situation. Behaviours that are unacceptable will be documented and discussed with the parent at pickup time. If the behaviour is serious or puts other children at risk parents will be called immediately to pick up the child. If the behaviour is continuous there will be a meeting with the Executive Director to determine the program is meeting the child's needs. Your cooperation is much appreciated in these circumstances.

MEDICATION AND ADMINISTRATION OF DRUGS

A medication authorization form must be completed by the child's parent/guardian before any drugs can be administered to a child. All medication must be brought to the program by the parent/teacher in the original container with the prescription label containing the medication name, child's name and dosage. Medication will be administered as directed on the label. All medication will be kept in a locked box with the exception of life threatening medication such as Epi-pens and Asthma Inhalers, which may be kept on the child or with staff.

ANAPHYLAXIS (Allergies)

Ensuring the safety of anaphylactic children or youth within the Boys and Girls Club programs is a shared responsibility that requires the cooperation of all. The Club strives to provide a safe environment for children and youth, but it is not possible to reduce the risk to zero. The Club will take reasonable efforts to restrict the presence of known life-threatening allergens in our programs when participant's lives may be threatened by the presence of those allergens. You must inform the program in writing of the child's allergies by methods of an Anaphylaxis Emergency Form. You must send your child to the program each day wearing an Epi-pen (if one is prescribed). You must provide the staff with any updated information, as it becomes available.
